

# WHO KNOWS!

Channelled for The Great One by Rae Chapple

How ever one comes, how ever one goes – one "Knows" of outcome.

Where would you be without the three principles of life – birth, death and in between?

Without birth – there is no life as you know it.

Without death – there has been no life as you know it.

Without the in between – there has been - *is* - no life as you know it.

So birth, death and - in between *is* life to you.

What is the most important? Birth? Death? Or, in between?

Can there be the one without the other - or, the other without the one? *Or*, the two without the one - *or*, the one without the two?

So – the sum total of life – as you know it – is the three. It was - *is*, and will be – all a part of Thee!

**Some come, go – *then* "Know".**

**Others come, "*Know*" – then go.**

**Few "Know" - come, then go.**
